PROFILE

Computer Engineering graduate with hands-on experience in software engineering, mobile application development, artificial intelligence, and enterprise content management. Skilled in building full-stack and AI-powered applications using Python, Flutter, Java, Kotlin, Django, SQL, and TensorFlow, with practical experience gained through internships, professional training, and academic projects. Successfully mentored 100+ students in programming and software development while designing engaging technical curricula and hands-on projects. Passionate about solving real-world problems through innovative technology, continuously learning emerging technologies, and contributing to high-impact engineering teams.

EDUCATION

- Egypt-Japan University of Science and Technology (E-JUST)** Alexandria, Egypt
Bachelor of Science in Computer Engineering (CGPA: 3.40) October 2021 – February 2026
Relevant Coursework: Data Structures and Algorithms, Computer Networks, Computer Organization & Architecture, Software Engineering, Machine Learning, Artificial Intelligence

TECHNICAL SKILLS

- Programming Languages:** Python, flutter, Java, C/C++, Kotlin, Dart, JavaScript, HTML, CSS, SQL
- Frameworks & Libraries:** Flutter, Django, Flask, TensorFlow, Keras
- Databases:** MySQL, MongoDB, SQLite
- Tools:** Git, Android Studio, Figma, Cisco Packet Tracer
- Operating Systems:** Windows, Linux (Basic Shell Commands, File System)
- Other:** MATLAB, Verilog, Microsoft Office Suite (Word, Excel, PowerPoint)

SOFT SKILLS

- Professional Skills:** Problem Solving, Leadership, Team Collaboration, Communication, Technical Documentation
- Languages:** Arabic (Native), English (Professional Proficiency), German (Beginner), Japanese (Beginner)

PROFESSIONAL EXPERIENCE

- Codo School** Remote
Coding Instructor May 2025 – Present
 - Teaching & Mentorship:** Mentored **100+ students** in programming fundamentals, algorithmic thinking, and full-stack development through live online sessions.
 - Curriculum Development:** Designed **150+ lesson plans**, coding exercises, and project templates that improved student engagement and supported project-based learning.
 - Student Projects:** Guided students in building **200 + web, mobile, and AI applications** using Python, JavaScript, Flutter, and HTML/CSS.
- National Bank of Egypt (NBE)** Cairo, Egypt
Information Systems & Infrastructure Intern (Digital Archiving) August 2025
 - Digital Archiving:** Supported the digitization and organization **enterprise documents** through metadata management and document indexing.
 - Enterprise Content Management:** Collaborated with the Information Systems team to improve document accessibility and support enterprise digital archiving workflows.
- Orange Digital Center** Remote
Software Engineering Intern September 2024
 - Technical Training:** Completed **160+ hours** of hands-on training in software architecture, database design, secure software development, and Agile methodologies.
 - Software Development:** Developed practical applications applying SQL databases, object-oriented programming, and software engineering best practices.
- iSchool (DEMI Program)** Remote
Coding Instructor July 2024
 - Instruction:** Taught Python, machine learning fundamentals, and block-based programming to **25+ students** in Grades 4–6.
 - Student Engagement:** Designed interactive coding activities and guided students through hands-on programming projects to strengthen computational thinking.

PROFESSIONAL TRAINING

- **Application Development and Integration (Enterprise Content Management Track)** Nasr city, Egypt
National Telecommunication Institute (NTI) – Digital Egypt Youth (DEY-HireReady) July 2026 – present
 - **Enterprise Content Management:** Built enterprise content management solutions using IBM FileNet P8, IBM Content Navigator, IBM DataCap, and OpenText Content Server.
 - **Enterprise Integration:** Implemented Java-based integrations using REST APIs, FileNet APIs, SQL databases, and LDAP services.
 - **Platform Configuration:** Configured repositories, document classes, metadata, security, workflows, and search templates in enterprise environments.
 - **Software Engineering:** Applied Object-Oriented Programming (OOP), SDLC, database design, and enterprise architecture concepts through practical projects.
- **Mobile App Developer Track** Alexandria, Egypt
Digital Egypt Pioneers Initiative (DEPI) April 2024 – October 2024
 - **Android Development:** Developed native Android applications using Java, Kotlin, and Android development best practices.
 - **Flutter Development:** Built cross-platform mobile applications for Android and iOS using Flutter and Dart with responsive UI design.
 - **Mobile Security:** Applied Android security fundamentals, secure coding practices, and mobile application protection techniques.
 - **Object-Oriented Programming:** Strengthened object-oriented programming concepts and software design principles through hands-on mobile development projects.

PROJECTS

- **Study Buddy – Quantized LLM for On-Device Education:** Oct 2024 – February 2026
 - Led the development of an offline, privacy-preserving educational assistant using quantized Mistral-7B (4-bit NF4) with RAG.
 - Features include PDF summarization, automated question generation, and interactive Q&A.
 - Achieved 3.25s median inference latency on 6GB VRAM devices with up to 60% improvement in mathematical reasoning.
 - **Tech Stack:** Python, Flutter, TensorFlow, Mistral-7B, FAISS, BGE-small.
 - GitHub (Main) GitHub (Personal)
- **EEG to Image Conversion Using CNN & GANs:** Nov 2023
 - Developed a brain-computer interface system to generate images from EEG signals using CNN and GAN architectures.
 - **Tech Stack:** TensorFlow, Python
- **Inventory Management System:** May 2025
 - Built a full-stack web application for real-time inventory tracking, product management, and reporting.
 - **Tech Stack:** Django, SQLite, HTML, CSS, JavaScript
- **LLM-Powered Teaching Assistant Mobile App:** Ongoing
 - Developed a cross-platform mobile application powered by quantized LLMs for PDF summarization and interactive learning.
 - **Tech Stack:** Flutter, Dart

CERTIFICATIONS

- **Oracle SQL Databases Specialization:** Coursera (LearnQuest)
- **Requirements Gathering for Secure Software Development:** Coursera (University of Colorado System)
- **Introduction to Android Mobile Application Development:** Coursera (Meta)
- **Data Analyst with Python:** DataCamp (In Progress)

EXTRACURRICULAR ACTIVITIES

- **Empowering Youth Everywhere (EYE)** Sharqia, Egypt
Human Resources Member September 2024 – February 2025
- **Enactus E-JUST** Alexandria, Egypt
Human Resources Member December 2021 – May 2022
